

# WILDWOOD BIO ETHANOL FIRE GRATE

Designed especially for all the fans of traditional chopped wood log fire baskets, Wildwood Bio Ethanol Fire Grate is a sleek and cosy alternative with full functionality of a bio ethanol fireplace. This beautiful rustic grate is an excellent solution for a stylish home in need of a functional and stunning centrepiece but not having the option of a working chimney or flue. As our logs are made of concrete and individually hand painted, we have achieved a very high definition of detail for the logs to look as realistic as possible.

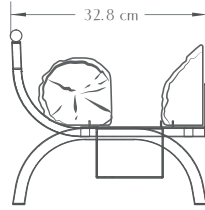

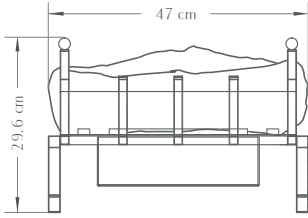

## FEATURES:

- Fully adjustable 1.3 L bio ethanol fuel burner
- Built-in fragrance diffuser for Aura Fragrance Oils
- Dimensions: 44 W, 29.6 H, 32.8 D cm
- Burning time per refill: 3–6 h
- Heat output: 2–3 kW

2 EXTRA REAL BRANCHES NOT INCLUDED
